Overview and credits.....

Black Salve Recipe

"For the medical profession this era may well be one of the most shameful and ethically questionable periods of its history." Stanley Wohl, M.D.- The Medical Industrial Complex (1984)

"PROVEN cancer cures like black salve and [Medical marijuana](#) remain none mainstream for treatment because of suppression and a profit motive- nothing else. It is for this reason the trustee's will now create open source information on the Panacea university to get real time progress " -Ashtweth Palise Trustee and Co founder of Panacea.

Overview and credits

A Panacea Volunteer -Marty who successfully documented his skin cancer cure using black salve

Given the conflict of interest present in the [Pharmaceutical industry](#) and in the "cancer business", the Panacea University has decided to open up an OPEN SOURCE section covering alternative medicine. This move is to help ensure that there is policing by an independent; evidence based none aligned NON PROFIT institute.

A complete FREE and open source alternative cancer cure course will be added into the new alternative medicine section on the Panacea University some time in 2011.

This document is a preview of what is to come. Medical marijuana and other suppressed cures will be added into this world worst completely free alternative cancer cure open source manual. We will also film a Panacea production. We have also decided to include an alternative medicine section in our [proposed granted non profit research and development centre](#). Mean time institutes like the <http://www.hippocrates.com.au/> centre are a great alternative health care resource.

Vivacious and energetic, Elaine is living proof that her theories work. A former Hollywood actress, she is Director of the Hippocrates Health Centre in Queensland, Australia, where she lectures on health issues and continues her research into natural ways of maintaining good health.

Note- [Quackwatch's coverage of black salve](#) is not accurate for the true black salve treatment, some salves may be un-safe always stick to the genuine black salve recipe from trusted sources.

Successful Black Salve testimonials are all over [you tube](#) and the [internet](#) - In fact they number in the thousands. These testimonials have only resulted because cancer sufferers researched the information by themselves. This is because your doctor currently does not prescribe this treatment to you. Why? There is there no informed consent, a combination of a conflict of interest and IGNORANCE of black salve remains. The conflict of interest is because you can nether patent this cure (due to it containing natural ingredients) or makes as much money from this treatment in compassion to the current prescribed drugs and chemo therapy. It's as simple as that.

Black Salve contains natural herbs and enzymes that are proven to neutralize carcinogens. It is applied on the skin or where the cancer location is thought to be (ie - breast cancer or tumour) to "draw it out". The skin once excreting the cancer then heals and the "hole" closes over.

Breast cancer, skin cancer and even a diagnosed untreatable Ewing Sarcoma (bone cancer) has been cured using black salve -Full references can be found on the once answer to cancer DVD. The Ewing Sarcoma case is unique as this is a condition where only Chemo was thought to extend the life not cures it out right.

The potential of this cancer CURE treatment is yet to be fully realized in consensus reality - The PUBLIC MUST CREATE PRESSURE (activism and community groups) to ensure that Black Salve trials are PUBLICLY done and are policed. If we don't take this cancer cure PROOF to the media, get

governments on record and the cancer clinics to create public pressure there will be no real time progress.

Big Pharma typically finance and make billions of dollars selling Chemo therapy drugs, there is no policing the current conflict of interest at this time. This is why we need an alternative medicine institute with a public face. Mean time there is enough PROVEN cases file to get the ball rolling so to speak.

Tanya Anderson testifying to her successful black salve cure of an "incurable" cancer Ewing Sarcoma (bone cancer) Taken from the one answer to Cancer DVD- <http://www.doctorsaredangerous.com/>

The proof that PUBLIC and POLICED black salve trials must be done to find out the true capacity of this treatment can be easily verified with medical records from Tanya Anderson's case. Tanya Anderson's cancer cured case is unique, Tanya and her family have testified to black slave pulling out and destroying an "incurable" cancer.

Step 1

First gather 50 grams of Bloodroot, Chaparral, Graviola and Galangal.

Then mix all ingredients into a bowl together.

Step 2

Pour 500mls of distilled water into a pot.

Then add 250grams of Zinc Chloride to the water

Step 3

Bring this mixture to the boil then simmer stirring frequently to ensure that there are no lumps

Step 4

Next add the 4 dried herbs to the simmering mixture.

Stir continuously until ALL the lumps disappear.

This quantity is more than enough to last a family a lifetime. Hence this recipe will need to be cut down to suit your needs.

Step 5

Once you have a smooth consistency add 25ml of [DMSO](#) to the mixture whilst still stirring. DMSO acts as a carrier and helps take the formula deep into the tissues

Step 6

Add 25mls of glycerine and stir it in, **this will help keep the formula moist. Depending on the humidity you may have to add a bit more glycerine. Allow the mixture to simmer for about 15 minutes.**

Step 7

When the mixture cools and cures it isn't runny anymore and has a paste like consistency.

Step 8

Store the black salve in suitable glass containers; it is best used after it has been sitting for 2 days at room temperature. Store these containers in your fridge it will keep indefinitely but may dry up over time if this is the case simply add a bit of water to re hydrate the mixture.
